AMENDMENT AFTER FINAL REJECTION

Commissioner for Patents  
Washington, DC 20231

Sir:

In response to the Office Action mailed January 29, 2002, in which the Examiner finally rejected all pending claims, Applicants respectfully request entry of the following amendment as it, at a minimum, reduces issues on appeal, and more importantly, in Applicants' opinion, places the case in condition for allowance.

IN THE CLAIMS:

Please amend claims 8-11 as is shown below (a marked-up version is submitted herewith):

8. (Amended) A writing on a transparent plastic member having a front side surface from which the writing is to be viewed and a rear side surface opposite the front side surface, wherein the writing is formed from an array of protrusions disposed on the rear surface and wherein the protrusions are arranged to form a visually communicative message.
9. (Amended) The writing of claim 8, wherein the writing is visible to a viewer viewing the front surface of the plastic member.
